OBJECTIVE

A motivated third-year Computer Science student pursuing a double specialization in *Data Science and Analytics (DSA)* and *Enterprise Systems (ES)*, seeking internship opportunities to gain practical, hands-on experience and enhance technical skills in data analytics, machine learning, data engineering, and broader data science applications.

EDUCATION

Ateneo de Manila University

Bachelor of Science in Computer Science, GPA: 3.75/4.00

Quezon City, PH

August 2023 – Present

Double Specialization in Data Science and Analytics (DSA) and Enterprise Systems (ES)

- Honors: Dean's List from First Semester A.Y. 23-24 to Present
- Scholarships: Director's List Scholarship and DOST-SEI JLSS Merit Scholar

SKILLS

Business Intelligence and Analytics: Power BI, Tableau, pandas, NumPy, Matplotlib, Seaborn, Plotly, scikit-learn, PyTorch, Data Modeling, Dashboard Design, KPI Reporting, Data Visualization, Applied Machine Learning

Data Engineering and Big Data: Apache Spark, Hadoop, Hive

Programming: Python, SQL, R, JavaScript

Tools: Git, VS Code, Microsoft Excel, Microsoft Office Suite, Google Workspace, Google Cloud

Web Frameworks: React, Next.js, Flask, Django, Node.js, Express

Core Strengths: Analytical problem solving, translating data into business insights, stakeholder communication, attention to detail, peer collaboration, time management

EXTRA-CURRICULAR AND EXPERIENCE

IT Skills and Development Officer

October 2025 – Present

Ateneo Management Information Systems Association

Quezon City, PH

- Created and facilitated technical training modules for internal members and external events, mentoring participants and providing hands-on support.
- Served as lead developer on multiple organizational and client projects, building and maintaining web systems while collaborating with cross-functional teams on MISA's technical and cluster initiatives.

Deputy for Website Management

July 2025 – Present

Ateneo Gabay

Quezon City, PH

- Managed and maintained the organization's main website, ensuring reliability, usability, and timely updates.
- Designed and implemented a custom shortlinking system to streamline link sharing.
- Oversaw and supported all domain-related needs, including configuration, troubleshooting, and domain management for organizational platforms.

Information Technology Intern

May 2025 – July 2025

SAILE Industries Inc.

Valenzuela City, PH

- Built and deployed an informational website using React showcasing company products and other important information.
- Contributed to digital transformation efforts by converting physical documents into electronic format.

PROJECTS

PPop Insights Dashboard | *Tableau, Python, Streamlit, Pandas, NumPy, pandas*

- Developed an interactive Streamlit dashboard visualizing social media engagement and musical analytics for 15 PPop Idol groups. The project was first done in Tableau then migrated to Streamlit.
- Enabled users to explore fan engagement patterns and musical characteristics through intuitive, interactive visualizations.

Mapping News Coverage of Marcos' First Six Months (2025) | *Python, scikit learn, NLTK, AutoMap, ORA*

- Performed LDA topic modeling (Python, scikit-learn, NLTK) and social network analysis (AutoMap, ORA) on 2025 news articles about Marcos Jr. to uncover monthly shifts in dominant themes, key actors, and information flows.
- Analyzed how topics and influential actors evolved month-to-month, mapping shifts in media framing and narrative focus.
